

ACO Separation Technology

Grease Traps and Oil Interceptor

## Product range

## and Specification

### ROGT500 PLUS Stage 1

#### Features:

- Manufactured from Stainless Steel 304 to ensure acid corrosion and stain resistance
- Space effective solution / below counter installation
- Smooth cleanable surfaces and easy removable, fully accessible airtight cover for inspection and maintenance
- Single phase separation
- The discharge pipe is fully accessible once the inspection cover has been dismantled
- Easy removable cover and basket
  - Flow rate: 1.5l/sec
  - Size (L) x (H) x (W) = 500x400x300
  - Inlet / Outlet: 50mm

Optional ACO Dosing unit, mounting frame and levelling feet available upon request

#### Typical applications:

Kitchens, Restaurants, Hotels, Cafeterias, Fast Food outlets

## Grease Trap

### Specification

ROGT 1700  
3 Compartment

#### Features:

- Manufactured from Stainless Steel 304 to ensure acid corrosion and stain resistance
- Smooth surfaces for easy cleaning, minimum dirt collection and high flow rates
- Triple phase separation
- Three large strainer baskets with draining slots
- Size, number and position of slots is accommodating primary, secondary and tertiary separation
- Easy to remove cover and baskets for cleaning
- The discharge pipe is fully accessible once the inspection cover has been dismantled
  - Flow rate: 4.5l/sec
  - Size (L) x (H) x (W) = 1725x775x400
  - Inlet/Outlet: 100mm / 110mm

#### Typical applications:

Hotels, Hospitals, Food Factories, Catering Industry, Commercial & Industrial Kitchens.

## 3 COMPARTMENT UNDERGROUND INSTALLATION

## Grease Trap

## Specification

ROGT 2000  
2 lit / sec

### Features:

- Manufactured from Stainless Steel 304 to ensure acid corrosion and stain resistance
- Smooth surfaces for easy cleaning, minimum dirt collection and high flow rates
- Separated Strainer and Grease Trap
- Two large strainer baskets with draining slots
- Three separate hinged covers
- Easy to remove cover and baskets for cleaning
- Two stage grease extraction with fat take off valve
- Built in suction valve for emptying the grease trap
- The discharge pipe is fully accessible once the inspection cover has been dismantled
  - Flow rate: 2l/sec
  - Size (L) x (H) x (W) = 1600x750x900
  - Inlet/Outlet: 100mm / 110mm

### Typical applications:

Prisons, Hotels, Hospitals, Food Factories, Catering Industry, Commercial & Industrial Kitchens.

## Grease Trap

### Specification

ROGT 2000  
4 lit / sec

#### Features:

- Manufactured from Stainless Steel 304 to ensure acid corrosion and stain resistance
- Smooth surfaces for easy cleaning, minimum dirt collection and high flow rates
- Separated Strainer and Grease Trap
- Two large strainer baskets with draining slots
- Four separate hinged covers
- Easy to remove cover and baskets for cleaning
- Two stage grease extraction with fat take off valve
- Built in suction valve for emptying the grease trap
- The discharge pipe is fully accessible once the inspection cover has been dismantled
  - Flow rate: 4l/sec
  - Size (L) x (H) x (W) = 1900x900x900
  - Inlet/Outlet: 100mm / 110mm

#### Typical applications:

Prisons, Hotels, Hospitals, Food Factories, Catering Industry, Commercial & Industrial Kitchens.

## Grease Trap

## Specification

ROGT 2000  
7 lit / sec

### Features:

- Manufactured from Stainless Steel 304 to ensure acid corrosion and stain resistance
- Smooth surfaces for easy cleaning, minimum dirt collection and high flow rates
- Separated Strainer and Grease Trap
- Two large strainer baskets with draining slots
- Four separate hinged covers
- Easy to remove cover and baskets for cleaning
- Two stage grease extraction with fat take off valve
- Built in suction valve for emptying the grease trap
- The discharge pipe is fully accessible once the inspection cover has been dismantled
  - Flow rate: 7l/sec
  - Size (L) x (H) x (W) = 2400x1100x1000
  - Inlet/Outlet: 100mm / 110mm

### Typical applications:

Prisons, Hotels, Hospitals, Food Factories, Catering Industry, Commercial & Industrial Kitchens.
